**Attachments:** FY20 Proposed Permits NH-October 2019-update Aug 2020.docx;  
MTRS\_Permit\_FFY2021.xlsx

Thanks Thelma. We look forward to seeing your completed list. We need that to plan accordingly, so the more information you can provide on timelines the more responsive we can be.

When we talk about permits, projected and those in the works, we can talk about outstanding issues, if you like. Or not. Also, let's talk about the MTRS (bean counts) for the next fiscal year (see attached).

Thanks for putting PMFH discussion at the top (the other items can be moved around if needed).

### Agenda Items:

- Powder Mill Finalization (*moved to top*)
- Permits Schedule (provided by EPA)
- Merrimack Station – Permit Appeal
- PFAS permit language
- MTRS

---

Sterg,

We have not put together our complete list of FY21 permits. We are working on that and will share when complete. Attached in the FY20 list. It is safe to assume that those permits that are listed for FY20 will carry over to FY21 if they aren't issued this fiscal year.

We can put Powder Mill early in the agenda.

Thanks,  
Thelma

Thanks Thelma,

We'll get back to you by COB tomorrow, as you requested, regarding what we want to add to the agenda. But for starters, we'd like an update on the permitting schedule, with dated activities (anticipated virtual site visits, requests for 7Q10, draft permits coming to DES for 21-day review, etc.) for at least the next 3 months, so we can plan accordingly. Also, Ted will join us for the PMFH Finalization discussion. I will forward the meeting invite. Let's put that as the first item on the agenda so he can join and then cut free. Much appreciated. ~Sterg
